Patriotic exercises also are being held this week on all 32 Newton playgrounds as part of the Independence Day observance.

But no fireworks will light up the sky over any part of the city.

A ban on fireworks displays in Newton is being continued because of the experience four years ago when children were injured by unexploded fireworks the day after the Fourth.

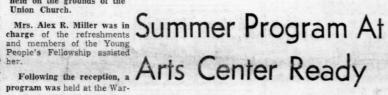

Another factor which influenced the decision to prohibit any fireworks show is that a serious traffic hazard was created when the city's streets were clogged by automobiles of persons from other communities who drove into Newton the last time a fireworks display was put on

RANDALL W. WEEKS

#### Ranny Weeks Assumes New **BU** Position

Randall W. Weeks, of New cial assistant to the vice president for University Affairs at Boston University. He formerly was the universit director of alumni affairs.

Mr. Weeks, a resident of Newtonville, now assumes duties as liaison and university representative in com-munity affairs and will aid in development programs. He will also supervise university-wide public ceremonies, speak on behalf of the university at alumni meetings and other groups of university friends throughout the year, and conduct a regular series of programs over the Univer-sity Radio Station WBUR-FM to keep alumni and the com-munity informed on univer-

sity activities and goals.

Randall "Ranny" Weeks
attended the Boston University College of Business Administration and the School of Law. After more than 25 vears in the advertising and entertainment fields as director, performer, manager, producer and musician in radio, motion pictures, television and major hotels, he joined the staff of the university as executive sec-retary of the Alumni Association in 1954.

A captain in the U. S. Naval Reserve, Mr. Weeks served twice in the U. S. Navy, from 1942-1946 and from 1951-1954 as a public relations of-ficer and later as officer in charge of Navy Recruiting and Naval Officer Procureand Naval Officer Procure-ment for the three-state Phila-

#### **Heavy Traffic Ahead**

We take this means to wish lots of luck to the safe and sane Bay State motorist over the approaching Fourth of July week-end-he'll need all he can get.

Already the summer crop of motor jack-rabbits, clowns and gas-niks have invaded our local and neighboring highways. If you have done any Saturday or Sunday driving during the past few weeks, the frenzied fraternity has been well in evidence.

So, now approaches the annual Fourth of July holiday, three days for most people. And, it's Tally-ho and away we go, heading for a happy somewhere off along the far-flung motor trails.

To many, that somewhere will be eternity, arrived at through grinding metal, crashing glass, spattered blood and oil; a terrible take-off to the

The looney battalions, gunning their accelera-tors, screeching their brakes and tires, stretching the speedometer needle beyond the danger zone, will aid materially in harvesting the toll of carnage on the highways.

The guys with the problems, who take them with them on the throughways, will do their share in the build-up of awesome statistics. The groper, the slow-poke, the heedless, have their parts to play in the three-day drama of death and injury.

Those who have no business driving in heavy holiday traffic also will contribute to those traffic events which add to the hospital and graveyard

High-speed throughway, divided highway and interstate motor road driving is something entirely different from guiding the family buggy to and from the super-market.

Any busy Sunday on a major highway will produce countless motorists who constantly broad-cast to the world their lack of know-how on the three and four-lane roads, their complete ineptness as chauffeurs in big time motoring.

The annual warnings will be issued by police and public safety officials, the same dedicated officers will be on duty. The safe and sane driver will have himself under control, while keeping all eyes alerted to the lunatic fringe.

But, the looneys will get in their deadly work in spite of all precautions.

Stay with the traffic, don't lag, don't show-off. Give the other fellow a break, be a defensive driver. Patience and courtesy are catching - but, unfortunately, discourtesy, impatience and boorishness

also are contagious. A long holiday week-end is ahead. Have happy times and—lots of luck.

Concern For Future

Editor of The Graphic

Free Library recently sent this letter to Miss Adelaide Ball, chairman of the Aldermanic Library Study Commit-Dear Miss Ball,

The Friends of the Newton Free Library share with you a deep concern for the future of Newton's library system This important community fa-cility has been the topic of study and consideration for a

great many years.
In 1948, the Wheeler Report recommended a new central library in Newton Centre. In 1963 two leading authorities in the field of library affairs were engaged by the city of Newton by vote of the Alder-men at the request of the Library Trustees and the Mayor brary system and to make any

necessary recommendations.

In April, 1964, their report was completed. This report called for a new main library building in Newton Centre. In November, 1964, an aldermanic study committee was appointed by the Aldermen to evaluate this report and to make suggestions for alder-

#### Insist on the GORDON BURNER

Why waste a lot of good money up the chimney? All gas conversion burners have pilots. Pilots are the tiny flames that ignite the main burners, that in turn heat your home.

However, here is a World of difference between the Pilot used on a Gordon, (self-generating) burner and those provided on the burners controlled by purchased current.

It's not the cost of the Electricity that's so important. Instead, it's the wasteful use of Pilot Gas. Gordon Burner Pilots in Winter consume around seventy cents worth of gas a month. Most pilots consume as much as one dollar and fifty cents worth of Fuel, or even more.

Why throw away nine dollars a year in this manner? All for no purpose.

You want quick ignition at the lowest possible cost and the GORDON (self-generating) pilot is designed to do just that.

If you wish to avoid waste, learn more about the economies made possible when you heat your home with a ROBERTS - GORDON GAS CONVERSION BURNER, and its more economical pilot.

May we mail you a descriptive folder?

dog . . . officer, that is. Patrol-man George Longbottom, recently appointed head of Newton's Animal Control Department, has the doggone job of controlling Newton's 9,000

canine pets.

"Since taking office in February of this year," explained. Officer Longbottom, had about 500 complaints a month, and an average of 100 calls a day."

The most unusual case thus far handled by the depart-ment, was capturing a run-away steer in Newton Corner that belonged to a cattle-dealer in Brighton. "It was quite a sight seeing a steer bombing down the tollroad at 50 m.p.h. in the passing lane!" Formerly a trainer of Ger-man shenards. Officer Long-

Group of the League of Women Voters of Newton participated in an all-day bus tour
ton Upper Falls. along the river—upstream to its source near Hopkinton and downstream to Boston Harbor.

In August, 1963, the Newton Board of Park Commissioners refused to approve an exchange of river reservation

JOHN V. HARVEY, ment. Although less than two years old, the organization of the league's Charles River Vedley Group was the culmination of a long series of events going back as far as the early 1950's when the national L.W.V. issued a call to local leagues throughout the United States for a study of local water resources, as part of a national study.

In answer to this call, Newton and other leagues in com-munities along the Charles River started their studies with a tour of the river con ducted by Charles H. W. Fos-ter, Massachusetts Commissioner of Natural Resources. The seeds of interest and concern for the welfare of the river and its communities which were planted during the early 1950's have resulted in 1965 in an accumulation of reports, maps, slides and citizen interest.

# Former School Site Of City's Mental Clinic

The former site of the All Newton Music School at 398 Walnut St., Newtonville, will be the home of the new Newton Mental Health Center.

Negotiations have been completed and the necessary renovations have already begun so that the clinic may be ready to open soon.

Dr. William Stone, director of the Newton Mental Health Center, and Kenneth Huberman, president of Action for Mental Health in Newton, are particularly pleased with this

Not only because of its close proximity to the nearby complex of school buildings and the Judge Baker Guidance Clinic, but also because of its easy accessi-bility and familiarity to residents of Newton.

Dr. Stone is in the process selecting an extremely capable staff, and as soon as all personnel are hired and renovation completed, the specific opening date of the clinic will

# Volpe's Popularity Rises **During Fight For Sales Tax**

Governor Volpe's popularity has risen while he has been fighting for the enactment of a sales tax.

A survey just completed by a professional polling organization showed that Volpe today would win reelection by more than 200,000 votes over any of his potential Democratic opponents

Last November, Volpe defeated Francis X. Bellotti by 23,000 votes, and Bellotti was not as strong a candidate as either Senate President Maurice A. Donahue or former Attorney General Edward J. Mccormack, Jr., would be.

This means, of course, that there has been an upsurge in Volpe's political stock since the State election and that a substantial majority of the voters across the Commonwealth approve of what Volpe has been doing during the first six months of his term.

It also confirms the belief of many political observers that Volpe will be a tough customer for any Democratic candidate to topple a little more than 15 months from now.

If Volpe maintains his present high popularity and wins reelection by a big margin next year, he will move out into the forefront as a potent content of the Republican Vice Presidential or even Presidential nomination in 1968.

One incident which oc-

trates many things about my adopted city. While on my way home from the Peace Corps office I arrived at the intersection of the main plaza to find an obviously rabid dog frothing at the mouth and going around in circles in the middle of the street.

The passersby gave the dog a pitying smile and walked blissfully on completely unaware of the grave danger lurking in the dogs

My companions and I walked half a block to the public health office where we fortunately came upon the director of the institution. We persuaded him to come and see the dog for himself.

Dumbfounded by this response, we asked him if there was some way of putting the dog out of its' misery and passersby out of danger. of danger.

"Maybe we can get another car to finish it off," he sug-gested as he stepped on to the street and started pointing the dog out to passing motorists, vainly hoping that one of them would run over the poor creature.

The drivers, of course, mistook him for a humanitarian who was asking them not to run over the dog and every car that came by gave the dog a wide berth

As a crowd of curious on-lookers gathered to enjoy the spectacle, the director ried back to his office in an embarrassed huff. My friends and I decided to try to obtain help at the police station which was on the corner.

The sergeant at the desk,

after listening to our story appeared bewildered and then said, "I don't know that there's much we can do except shoot the dog." Now we were completely exasperated and wondered whether it was all worth the effort to help the poor suffering dog.

The GOP might have a hard time coming up with a stronger Presidential standard-bearer than Volpe. A Republican Governor who can win elections in a Democratic State a liberal, a Catholic and an Italo-American, Volpe might be able to give President Johnson quite a tussle in some of the northern States which normally go Democratic.

During the past six months it has been apparant that Volpe was getting his administration off to a much better start than he did in 1961 and that he was profiting from the mistakes he made during his

If Volpe's tax program is killed and the substitute tax plan is chopped down, the likelihood is that the Governor will resubmit a tax program to the Legislature and that a limited sales tax will be one of its features.

Reports have been circulated on Beacon Hill that the Legislature may kill both Volpe's program. tax program and the substitute Democratic tax plan, enact enough new taxes to balance the State's budget and then wind up their session and go home without providing any tax relief for the cities and

One big reason that isn't likely to happen is that the lawmakers can't conclude their 1965 session until Volpe allows them to do so, and Volpe has every intention of keeping them on Beacon Hill until they provide new revenue to lower city and town tax rates and to pay for the better education called for in the legislativeapproved Willis Report.

Governor Volpe arranged to have the survey made by the professional polling concern so that he could get some specific information as to how the people feel about the way he has been running the State's business and the stands he has been taking on such issues as the sales tax.

He must have been gratified at the report submitted to him by the pollsters.

The big problem for Donahue will come if the so-called Democratic tax plan is cut down so that it will not raise \$200 million and Governor Volpe has a sound reason for vetoing it.

In that event, Donahue would leave himself open to criticism if he then failed to join in hammering out a compromise plan and nothing was done to help out the cities and

towns. Up to now, however, what Donahue has done has been to support a tax program which believes would meet the financial crises confronting many cities and towns. Any ar guments as to the respective merits of the plan advanced by Governor Volpe and the Dem-ocratic plan should be based on honest differences of opinion which don't warrant any

PERFORMANCE CERTIFICATE

This is to certify that a standard Sunbeam IMP Sportsedan was driven from Los Angeles to New York in the record time of 46 hours - 45 minutes November 20-22, 1964. The endurance run was made under supervision of SPORTS CAR GRAPHIC magazine. No mechandical difficulty was encountered and the IMP was in perfect mechanical condition when it arrived in New York. This will further certify that this very same IMP crossed the country from New York to Los Angeles in August, 1964 in the then record time of 48 hours - 9 minutes.

# TAKE THE ROOTES'

Order A Fine Rootes' Car FOR DELIVERY OVERSEAS You'll See More . . . Do More . . .

# AND SAVE Money Too!

The best way to plan your trip to Europe is to see your Rootes' dealer first. Look over and order your new Hillman, Sunbeam or Humber in this country to be delivered when you arrive abroad. Then you can count on the added pleasure, convenience, comfort and economy of touring Europe in your own car! No time-tables to hurry or harass you. No luggage worries. You go where you please, when you please — visit fascinating out-of-the-way places and people you wouldn't get to see otherwise.

Rootes' Overseas Delivery Plan was created with you in mind—the first plan to offer tourists an opportunity to purchase cars abroad at special low prices. These prices are actually lower than the factory Sterling tax-free prices, converted into American dollars and enables you to save in 2 ways! You not only eliminate the expense of car rentals, plane and rail transportation while traveling in Europe but even after adding the costs of shipping your car home when your travels are over, the price you pay for your car overseas will be substantially less than what you'd pay for the same car in this country.

Through Rootes' Overseas Delivery Plan, you can go into any Rootes' dealer in this country and select exactly the Hillman, Sunbeam or Humber car you want. There are 11 different models to choose from: sedans, convertibles, sports cars and station wagons. Each one of Britain's luxury family automobiles is skillfully designed and engineered. Its quality craftsmanship assures its long and profitable life and high re-sale value — all backed by famous Rootes' service facilities in 163 countries throughout the world.

Delivery of the car of your choice will be made at any city you designate in the British Isles or on the Continent, with registration, plates, license, border permits and even insurance taken care of in advance. Everything is ready for you to slip behind the wheel of your new car — and drive!

And when you vacation fun is over, you can have your Rootes' car shipped back home — for years of continued driving pleasure. Wherever you live, wherever you go, there are Rootes' dealers and stations to serve you with these Rootes' cars, representing the best traditions of British automotive craftsmanship.

Cushioned in that bucket seat, you'll find freedom has a side you never saw before. And, like any truly great sports car the Sunbeam Alpine offers you race-winning power and performance, plus superior driving comfort. See for yourself from behind the wheel. Come on in. It's only

the event also marked the 35th anniversary of the club. In this instance the club gave a birthday gift instead of receiving one.
David A. Gibson, executive

director of the state Fibrosis Research Foundation, re-ceived the check from the Trojans.

In accepting this check, Mr. In accepting this check, Mr. Gibson was pleased to announce that over the past years members of this club have presented the Foundation with the companion of t tion with over \$10,000.00 to be used in the fight against Cystic Fibrosis.

He further stated that these boys could claim that their efforts have purchased for the many children afflicted with Cystic Fibrosis, ten years of life since 5 years ago the average expectancy of life was 5 years old and today it is 15 years of age. Cystic Fibrosis is an in-

herited disease attacking both the lungs and digestive system of one out of every one thousand births in this country today. At the present time, there is no known cause or cure for this disease, and trying to find the answers are hundreds of research scien-tists in the thirty-six CF Research Centers in the United States. # Temporary Lull In Tax Battle

A temporary midsummer Iull has settled over Beacon Hill's big battle of taxes.

All the proposed tax measures are being studied by the House Ways and Means Committee members who will endeavor to hammer out a compromise tax program incorporating what they consider the features of the various tax bills.

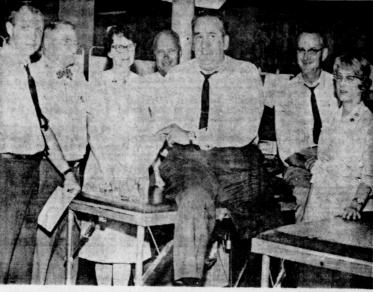

The big unanswered questions are what tax scheme they will produce and whether they can obtain its passage after they produce it.

A majority of the members of the House of Representatives agree that some tax program should be enacted this year which would provide financial assistance for cities and towns and enable them to lower real knew its contents or how much estate tax rates.

By PAULA NEWMAN

"I like kickball the best!" -"I like Arts and Crafts!" -"I'm catcher on the Midget League!"

Newton children are extremely enthusiastic about the activities offered at Newton playgrounds. As one eight-year-old girl ex-plained, "We not only make a lot of things, but we also make a lot of friends."

At the Memorial School At the Memorial School playground, the favorite activity enjoyed by the boys is kickball. "Everyday we have a kickball game! I like that better than girls!" stated nine-year-old David Cohen of 46 Mayur Lang in Oak William

46 Marvin Lane in Oak Hill. When asked what the girls enjoyed most, 13 - year - old June Conway of Osborne Path said, "Most of us like to make potholders and pencil cases." June, along with Patty

What with gang-ups that threatened to turn into rumbles and the arrest of five youths on house breaking charges, the week's crime log was virtually written by the younger element in Newton. On two occasions last week, police broke up gatherings of

from 40 to 60 boys and girls on the grounds of Newton South High School.

As a result of those, and ther recent incidents, Police Capt. William F. Quinn had a directive read at roll calls. It declared that such situations must be corrected. In event of continued disturbances, it stated names of passengers operators and owners motor vehicles should

The Sudbury facility receives 290 million gallons of water daily from Quab-bin and Wachusett. It is currently pumping out considerably more than that.

When consumption exceeds intake, Commissioner Whit-more explained, the reservoir is forced to dip into reserves and prolonged use of this re-serve supply would dry up too large an area of the reservoir.

During the summer months the average daily consump-tion of water in Boston and the 33 surrounding communities which draw from the MDC system is about 265 million gallons. That amount is higher this summer.

While the restrictions, such as car washing and lawn watering, requested by Commissioner Whitmore voluntary, failure to ply with them will result in the MDC asking the Massachusetts Department of Health to rule that a water shortage exists in Newton and other communities in the system in order that municipal officials may legally restrain the use of water on both public private premises, it was

# Salty Keeps Pols Guessing On Future Political Plans

If Senator Leverett Saltonstall isn't planning to run for reelection next year, he's expending an awful lot of energy these hot summer days

Saltonstall looks, acts and talks like a candidate for another term in the U. S. Senate.

Yet, a surprising number of Republican leaders voice the firm conviction that Saltonstall will retire to private life at the end of next year.

To this observer it would seem that they're indulging in wishful thinking. But they offer several reasons to support their opinion

They say that if Saltonstall had reached a decision to stand for reelection he would have made clear intentions by now and would have put an end to all the speculation and conjecture.

Maybe they're missing the point. Perhaps Salton-

stall in his own way was serving subtle notice that he will be a candidate in next year's election when he visited Beacon Hill to address a joint session of the two branches of the Legislature. Possibly he assumed that the politicos in both

parties would get the message when he was out in west-HIGHLIGHTS (Continued on Page 4)

Miss Ann Golding of 49

Miss Golding reports that Certificates will be awarded to youngsters who read 15 or more books during the course of the summer.

of the summer.

Five children are certain of getting those certificates. Since the reading program started on June 7 they already have read 40 or more books apiece. That is an average of about a book a day.

day.
What books are in greatest demand by the youngsters?
That depends on their age,
of course, answers Miss Gold-

ing.
One of the favorite books of the smallest and youngest readers is "Mary Poppins" by P. L. Travers. They also enjoy listening to folk and enjoy listening to folk and fairy tales. Children in the fifth and

# Little League Tournament Nears Its Climax

Newton North, Newton South and Newton East All Stars provided plenty of winning action in recent Little

ning action in recent Little League play. On Monday night, Newton North All Stars advanced to the district finals by topping Norwood Americans 6 to 5 on

Lyons playground.

That victory, the third in a row, was due in great part to excellent pitching by Mike Greene. His well-hurled five innings in relief had defeated Norwood in the first tournament contest. Monday night, Lyons playground.

ment contest. Monday night, Greene allowed only four hits. In the second District 11 Little League tournament game, played Friday night, Brian Keefe almost had a no-hitter, missing by only three outs. His single-hit performance turned back Newton Central 5 to 0.

Waterless hand cleaner

An interior flat wall finish. We like to call it a flat wall finish rather than flat wall point. When applied you'll just love its look—its feel under the brush, the beautiful colors, It washes like latex keeps a wet edge retention like an oil paint. Brushes and hands clean easily in soap and water.

The trip home from Denmark was a little longer than expected for Barry Canner of 275 Islington Rd., Auburndale.

According to his schedule, he was to reach New York aboard the Holland-American Lines' ocean liner "Seven Seas" last Thursday. He should have been home that

A fire in the engine room which knocked out the ship's electrical system the previous weekend changed all that. The vessel was becalmed and ea-going tugs were sent to her rescue. The nearest port was St. John's, Newfoundland, and that's where the Seven with Barry aboard

All arrived in St. John's safely on Saturday where chartered planes were on hand to fly the passengers to New York.

Barry was one of 16 New England young people enroute nome after a year of study in Europe under the American Field Service progam. He had received his diploma from Newton High School in absen-tia and plans to enter Brown University in Providence, R.

I., in September.
Mrs. Leonard E. Canner said her son had spent his senior high school year in Denmark, living with a family in Nykobing about 60 miles from Copenhagen. She said he has become fluent in Danish speech during his year abroad and expressed the hope that many more high school students will become interested in the exchange study program sponsored by the AFS Her husband is president-elect of the organization's Newton Chapter. for this year has been sent to former School Committee Chairman Haskell C. Freedman, in whose name the building was purchased last

year.

If the assessors don't change their mind and insist that the building be sold for unpaid taxes, the likelihood is that the bank which holds the mortgage on the structure would foreclose, take back

the building and pay the taxes to protect its own interests. In such an event, the Newton Junior College, already plagued by a lack of adequate space, would face a worsened problem.

The building in question is at 5 Park place, Newtonville, and has been used as an office by the Junior College.

A group of private citizens, who formed the Newton Junior College Belevelonening. ior College Redevelopment Trust, bought the building last year for \$25,000.

They obtained a large

mortgage at the time and expected that enough money would be realized from public subscription to pay off the mortgage and renovate the building.

That expectation did not naterialize, and they then materialize, and they then asked the city to lease the building for \$1 per year and assume the cost of maintaining and renovating the struc-

Mayor Gibbs, however, after conferring with Building Commissioner Vincent D. Burns, took the position that the building was not worth reno-vating and that a new struc-ture could be erected for what it would cost to place the old one in suitable condition.

Meanwhile, the Board of

Assessors maintained that they had no choice but to levy taxes on the building and to order the building sold if the taxes were not School officials tried

straighten out the weird situation by urging that the taxes be abated since the building was in reality owned by a charitable group.

So far no abatement has been granted, although anconference will be held by the Mayor to decide whether the city should take over the building, which has been advertised for
